

Annotated Checklist of Vascular Plant Taxa Documented at  
**Gillam Park (City of Little Rock)**

Nomenclature, with a few exceptions, according to Gentry et al., eds. 2013. *Atlas of the Vascular Plants of Arkansas*.

| Scientific Name*  | Common Name                | Growth Form       | Habitat(s) | Source | Voucher                          | Herbarium |
|---|----------------------------|-------------------|------------|--------|----------------------------------|-----------|
| <i>Acalypha gracilens</i>                               | slender three-seed mercury | Forb              | A          | 6      |                                  |           |
| <i>Acer negundo</i> var. <i>negundo</i>                 | box elder                  | Tree              | G          | 19     |                                  |           |
| <i>Acer rubrum</i> var. <i>rubrum</i>                   | red maple                  | Tree              | E,G        | 19     |                                  |           |
| <i>Aesculus pavia</i>                                   | red buckeye                | Tree              | B,C        | 19     |                                  |           |
| <i>Ageratina altissima</i> var. <i>altissima</i>        | white snakeroot            | Forb              | C,I        | 4      |                                  |           |
| <b>Ailanthus altissima</b>                              | tree-of-heaven             | Tree              | I          | 19     |                                  |           |
| <i>Aira caryophyllea</i> var. <i>capillaris</i>         | annual hair grass          | Graminoid         | I          | 19     | Witsell 07-0275                  | ANHC      |
| <b>Albizia julibrissin</b>                              | mimosa                     | Tree              | I          | 19     |                                  |           |
| <i>Allium canadense</i> var. <i>canadense</i>           | wild onion                 | Forb              | B,C,D,H    | 19     | Sundell & Kelley FC170           | ANHC      |
| <i>Allium canadense</i> var. <i>mobile</i>              | meadow wild onion          | Forb              | A          | 19     | Eric Hunt Photo                  |           |
| <b>Alternanthera philoxeroides</b>                      | alligator-weed             | Forb              | H          | 12     | Sundell & Kelley FC186           | ANHC      |
| <i>Ambrosia artemisiifolia</i>                          | common ragweed             | Forb              | I          | 10     |                                  |           |
| <i>Ambrosia bidentata</i>                               | lance-leaf ragweed         | Forb              | A,I        | 10     |                                  |           |
| <i>Ambrosia trifida</i>                                 | giant ragweed              | Forb              | I          | 1      |                                  |           |
| <i>Amelanchier arborea</i>                              | downy service-berry        | Tree              | A,B        | 7      |                                  |           |
| <i>Amorpha fruticosa</i>                                | indigo-bush                | Shrub             | F,G,H      | 19     | Eric Hunt Photo                  |           |
| <i>Ampelopsis arborea</i>                               | peppervine                 | Woody Vine        | F,G,I      | 19     | Audubon Arkansas staff s.n.      | ANHC      |
| <i>Andropogon gerardi</i>                               | big bluestem               | Graminoid         | A,B        | 19     |                                  |           |
| <i>Andropogon virginicus</i>                            | broomsedge                 | Graminoid         | I          | 19     |                                  |           |
| <i>Antennaria parlinii</i>                              | pussytoes                  | Forb              | B,C        | 19     |                                  |           |
| <i>Apocynum cannabinum</i>                              | dogbane                    | Forb              | G,I        | 19     |                                  |           |
| <i>Aralia spinosa</i>                                   | devil's-walkingstick       | Tree              | C,F        | 17     | Sundell & Kelley FC146           | ANHC      |
| <i>Aristida oligantha</i>                               | oldfield three-awn         | Graminoid         | A,I        | 1      |                                  |           |
| <i>Aristida purpurascens</i>                            | arrow-feather three-awn    | Graminoid         | A          | 6      |                                  |           |
| <i>Aristolochia reticulata</i>                          | Texas Dutchman's-pipe      | Forb              | A,B        | 19     | Witsell 16-0024, Witsell 07-0275 | ANHC      |
| <i>Aristolochia tomentosa</i>                           | pipe-vine                  | Woody Vine        | D,G        | 1      |                                  |           |
| <i>Arundinaria gigantea</i>                             | river cane                 | Shrub             | G          | 19     |                                  |           |
| <i>Asclepias tuberosa</i> subsp. <i>interior</i>        | butterfly milkweed         | Forb              | A,B        | 17     | Eric Hunt Photo                  |           |
| <i>Asclepias variegata</i>                              | white milkweed             | Forb              | B          | 19     | Eric Hunt Photo                  |           |
| <i>Asclepias verticillata</i>                           | whorled milkweed           | Forb              | A,B        | 17     | Eric Hunt Photo                  |           |
| <i>Asimina triloba</i>                                  | pawpaw                     | Tree              | D          | 19     |                                  |           |
| <b>Asparagus officinalis</b>                            | asparagus                  | Forb              | I          | 21     | Audubon Arkansas staff s.n.      | ANHC      |
| <i>Asplenium platyneuron</i>                            | ebony spleenwort           | Fern or Fern Ally | A,B,C      | 19     | Sundell & Kelley FC183           | ANHC      |
| <i>Athyrium filix-femina</i> subsp. <i>asplenioides</i> | southern lady fern         | Fern or Fern Ally | E,G        | 19     |                                  |           |
| <i>Baccharis halimifolia</i>                            | saltbush                   | Shrub             | I          | 10     |                                  |           |
| <i>Baptisia alba</i> var. <i>macrophylla</i>            | white wild indigo          | Forb              | I          | 17     | Eric Hunt Photo                  |           |
| <i>Berchemia scandens</i>                               | rattan-vine                | Woody Vine        | C,F,G,I    | 19     | Eric Hunt Photo                  |           |
| <i>Bignonia capreolata</i>                              | cross-vine                 | Woody Vine        | C,F,G      | 19     | Eric Hunt Photo                  |           |
| <i>Boechea canadensis</i>                               | Canadian rockcress         | Forb              | B          | 17     | Sundell & Kelley FC181           | ANHC      |
| <i>Boehmeria cylindrica</i>                             | false nettle               | Forb              | G,H        | 1      |                                  |           |

Total Taxa:

390

| Growth Form:      | Growth Form Description:   |
|-------------------|--|
| Forb              | herbaceous flowering annual or perennial, non-graminoid and non-fern plant [herbaceous vines are treated separately]   |
| Graminoid         | herbaceous annual or perennial grass or grass-like plant [here defined including only true grasses (excluding bamboo members), sedges, and rushes]   |
| Fern or Fern Ally | vascular, non-flowering plant that reproduces by spores rather than seeds via a life cycle consisting of separate and distinct gametophyte and sporophyte alternation of generations   |
| Herbaceous Vine   | herbaceous annual or perennial twining/climbing/trailing plant with relatively long stems [although evergreen perennial trailing plants, partridge-berry & periwinkles (Vinca spp.) are included here due to their resemblance to herbaceous plants]       |
| Woody Vine        | perennial, woody or semi-woody twining/climbing/trailing plant with relatively long stems [may not appear especially 'woody' but does not die back to ground in winter...e.g., dewberries (Rubus spp.), some greenbriers (Smilax spp.)]                    |
| Shrub             | perennial, often multi-stemmed woody or semi-woody plant usually less than 5 meters (16 feet) in height at maturity [including bamboo members of the grass family (which may be taller), yuccas, blackberries (Rubus spp.), prickly-pears, dwarf palmetto] |
| Tree              | perennial, often single- or relatively few-stemmed woody plant typically greater than 5 meters (16 feet) in height at maturity [including seedlings, saplings, and stunted individuals of such taxa]   |
| Non-vascular      | non-vascular plant   |

**Habitats:**

- A = Igneous (nepheline syenite) glades
- B = Igneous (nepheline syenite) woodlands
- C = Dry-mesic (white oak) forest
- D = Mesic riparian and stream terrace forest
- E = Wooded seeps and springs
- F = Hardwood flatwoods
- G = Bottomland hardwood forest (seasonally flooded)
